

Health and Safety at Work Policy

Introduction

The “Health & Safety at Work etc. Act 1974” (HASAW) and subsequent regulations place obligations upon employers, their employees, and the self-employed, in respect of measures to safeguard everyone involved in, or affected by, work activities.

These obligations have been developed during the years since the original HASAW and through the issuing of regulations and approved codes of practice.

This process of development may be expected to continue and has been given additional impetus through the embodiment into UK law of EC Directives, of which the “Management of Health & Safety at Work Regulations 1999” is a significant example.

Responsibility for the production, updating, and development of this policy lies with the Chief Executive Officer, but the actual updating and amendment may be delegated.

All employees and contractors are required to be familiar with this policy, to understand it and to act in accordance with its requirements.

All employees and contractors have a legal obligation to work and act with due regard to the Health and Safety of themselves and others, to co-operate in complying with statutory duties, and not to intentionally or recklessly misuse anything provided by the school in the interests of health, safety and welfare.

This policy is issued with the authority of the Chief Executive Officer and its requirements are binding upon all employees.

Legislation

This policy is based on advice from the Department for Education on [health and safety in schools](#) and the following legislation:

[The Health and Safety at Work etc. Act 1974](#), which sets out the general duties employers have towards employees and duties relating to lettings

[The Management of Health and Safety at Work Regulations 1992](#), which require employers to make an assessment of the risks to the health and safety of their employees

[The Management of Health and Safety at Work Regulations 1999](#), which require employers to carry out risk assessments, make arrangements to implement necessary measures, and arrange for appropriate information and training

[The Control of Substances Hazardous to Health Regulations 2002](#), which require employers to control substances that are hazardous to health

[The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations \(RIDDOR\) 2013](#), which state that some accidents must be reported to the Health and Safety Executive and set out the timeframe for this and how long records of such accidents must be kept

[The Work at Height Regulations 2005](#), which requires employers to protect their staff from falls from height

This policy complies with our Funding Agreement and Articles of Association.

Statement of Intent

The Responsible Body is committed to identifying, then eliminating or controlling, any hazards encountered in their schools or on school sites.

The Responsible Body is committed to the Health and Safety of others not employed by the Responsible Body, who may be affected by the activities of the school, including pupils, volunteers, visitors, central team members, and contractors on site.

The Chief Executive Officer fully accepts their responsibilities under the "Health & Safety at Work Act 1974" to provide the resources to ensure the health, safety and welfare of staff, pupils, volunteers, visitors and contractors.

The Chief Executive Officer will monitor this policy and revise it as necessary, through the appropriate committee of the Trust Board.

Consultation

The Responsible Body will consult directly with employees about the following:

- The introduction of any measure which may substantially affect their health and safety at work;
- Arrangements for getting competent people to help them comply with health and safety laws (a competent person is someone who has the necessary knowledge, skills and experience to help an employer meet the requirements of health and safety law);
- The information you must give your employees on the risks and dangers arising from their work, measures to reduce or get rid of these risks and what employees should do if they are exposed to a risk;
- The planning and organisation of health and safety training;
- The health and safety consequences of introducing new technology.
