1.0 INTRODUCTION

The “Health & Safety at Work etc. Act 1974” (HASAW) and subsequent regulations place obligations upon employers, their employees, and the self-employed, in respect of measures to safeguard everyone involved in, or affected by, work activities.

These obligations have been developed during the years since the original HASAW and through the issuing of regulations and approved codes of practice.

This process of development may be expected to continue and has been given additional impetus through the embodiment into UK law of EC Directives, of which the “Management of Health & Safety at Work Regulations 1999” is a significant example.

This Health & Safety policy serves the dual purpose of drawing together into one document those procedures and guide-lines which have been developed within the school in response to the regulations that currently apply and a framework for future developments and updating that may apply as necessary.
